

## Vango Balletto Air 200, Size 200cm, 2025

# £299

Size 200cm

Frame Air

Condition: Used

Make: Vango (2025)

Awning Type: Porch

### Features Include

- **Split Access Door** - Flexible access with a 60/40 split side door. Roll back a section for quick entry, while the secondary mesh door enhances ventilation.
- **Easy Access Doors** - Seamless entry for all. A flat access door ensures easy access for wheelchairs, prams, and those with reduced mobility.
- **Zipped Privacy Curtains** - Effortless privacy control, zip curtains adjust with ease for customizable light and privacy or roll down neatly when not in use.
- **Bracer Beams Included** - Small AirBeams reinforce the main AirBeam structure, enhancing stability for a stronger, more secure setup.
- **Oversized Bag** - Pack up with ease with a wide opening for simple storage, plus robust compression straps to minimize pack size.
- **PVC Mud Strip** - Strategically placed at the awning's base to combat splashback. Any rain spray from hard-standing pitches can be easily wiped clean, keeping your setup fresh and dry.
- **Diamond Clear Windows** - Designed to maximise brightness and visibility, creating a spacious, airy feel inside.
- **Steel Rock Pegs** - Built to last, these strong, durable pegs are designed for tough terrain and come with a convenient carry bag for easy storage.
- **Adjustable Pegging Points** - Pitch with confidence, the adjustable pegging points are designed to adapt seamlessly to uneven terrain for a perfect setup every time.
- **SkyTrack II** - A flexible hanging system which allows you to easily attach lighting or storage. The SkyTrack system allows you to customise your awning to suit your needs

- **Supplied with Pack of 10 Skyhooks** - Effortlessly enhance your space by sliding storage or lights onto the SkyTrack System for a customised setup.
- **Reflective Webbing Storm Straps** - Stay secure and visible in strong winds with reflective storm webbing straps. Designed to clip easily onto pre-attached buckles and peg into the ground. The reflective design catches torchlight, making them easy to spot in low light.
- **AirBeam S.I Pro - Single Point Inflation** - With 10 years experience of AirBeam development and testing, Vango introduces single point inflation, a new and revolutionary feature for quick and easy inflation through the AirSpeed S.I Pro valve. Our unique system ensures pitch time is minimised while the multiple AirSpeed valves help with simple deflation. The added feature of self-isolated AirBeams ensures that in the unlikely event of a puncture, the structure remains strong and functional.
- **Elements Shield Fabric** - Lightweight, compact, and built to endure. Our 150D fabric boasts a 5,000mm HH rating for superior waterproofing, while ColourLok technology keeps colours vibrant adventure after adventure.
- **Draught Seal System** - Seamless connection, zero draughts. This innovative design creates a snug seal between the awning and caravan—no poles needed. Patented GB2574036.
- **Touring Awning** - Built for adventure, not long-term stays. Designed for touring use, this awning withstands holiday trips with ease. While prolonged UV exposure can accelerate wear, normal use ensures lasting performance for many getaways to come.
- **Draught Skirt and Wheel Arch Covers Included** - Stay warm and comfortable with a Draught Skirt and Wheel Arch Covers included, blocking cold air from entering your awning.
- **AirBeam Pump** - The ergonomically designed pump ensures effortless inflation. Features a built-in pressure dial and a convenient carry bag for easy transport.
- **AirBeam Structure** - A decade of innovation in AirBeam technology makes us the leaders in pole-free pitching. Designed for speed and simplicity, AirBeam ensures your awning is up in minutes—AirBeam pump included.
- **Pre-Angled Beams** - Designed for more space and stability—its advanced curve maximises internal room while providing superior wind resistance.
- **Rain Tested** - Stay dry, whatever the weather. Every tent and awning is put through tough rain tests to meet European EN5912 standards—so you can trust it to keep the water out when it matters most.
