Vango Balletto Air 200 & Carpet Package, Size 200cm width, 2021

£525

Description

The Vango Balletto Air 200 caravan awning is a smaller size than many air awnings, making it easy to erect, store and use.

We have bundled this with a matching Vango Carpet for maximum value.

Please contact us to ask about new awning availability from stock.

Features Include

• Key Features:

Inflatable AirBeam® Structure - AirBeam® technology ensures your awning is erect within a matter of minutes

Elements 150 Fabric – Strong and durable, this 150D fabric is lightweight and highly waterproof with ColourLok™ technology to aid colour retention

AirBeam S.I Pro® - Single Point Inflation for quick and easy inflation

Touring Awning – This awning is designed for touring use; it is not designed for static or long-term seasonal pitching as extensive exposure to UV light will cause accelerated fabric degradation

PVC mud strip positioned around base of awning for easy cleaning

Vango draught seal system creates a tight seal between the awning and your caravan, ensuring no draughts come into your awning

Split access door - The 60/40 split of the side door allows you to roll a section away for quick entry. This door also features a secondary mesh door for added ventilation

Ventilated draught skirt & two wheel arch covers Included

AirBeam Pump included

Fully wind & rain tested to the European standard EN5912

Steel rock pegs included

Adjustable pegging points allows awning to be pitched perfectly on uneven surfaces

Easy access doors - A flat entry access door creates easy access for wheelchairs, prams and people with reduced mobility

Flexi door - Adjust to be fully or half open, or completely removed for maximum flexibility whatever the weather

Diamond Clear windows maximise light and visibility to provide a bright and airy environment

Zipped privacy curtains are simple and quick to use, and will allow varying levels of opening or simply roll down and secure away

Oversized bag with robust compression straps allowing you to reduce the overall pack size and makes it simpler to pack away your awning

Bracer beams Included - Small AirBeams® secured in between main AirBeam® structure for enhanced stability

AirSpeed® Valve System and Easy Access Positioning - Designed by Vango to inflate your AirBeam@s with even less effort
